

Setting Up Application Environment

IBM Cloud Account Creation

Team ID	PNT2022TMID01767
Project Name	Nutrition Assistant Application

The screenshot shows the IBM Cloud Dashboard interface. At the top, there's a navigation bar with the IBM Cloud logo, a search bar, and links for Catalog, Manage, and the user's name (KRISHNAKANTH N's A...). Below the navigation bar, the main content area is titled "Dashboard" and includes a "For you" section with five recommended actions: "Build" (Explore IBM Cloud with this selection of easy starter tutorials and services.), "Discover the Watson Internet of Things (IoT) Platform" (Use the built-in web console dashboards to monitor your IoT data and analyze it in real time.), "Architecture center" (Learn best practices and leverage reference architectures for the cloud.), "Moving your application to the cloud" (Plan the right approach for a successful cloud migration.), and "Modernize your application" (Leverage code patterns, practises, and architectures to modernize workloads in stages or through a complete transformation.). Each action has a "Getting started" or "Recommended" button and a time estimate. On the right side, there's a user profile dropdown menu for KRISHNAKANTH N, showing options for Profile, Log in to CLI and API, Privacy, Change theme, and Log out. Below the "For you" section, there's a "News" section with two articles: "TrustRadius Best Software: Five IBM Offerings to Make the List" and "Announcing IBM Cloud Pak for Network Automation Version 2.4". To the right of the news are sections for "Recent support cases", "Planned maintenance", and "IBM Cloud status", each with a "View all" link. The bottom right corner features a blue chat button.
